APPRENTICESHIP REFORM

This price book provides details of the fees associated with VTCT Skills End-point Assessment (EPA) services. It reflects our current pricing structure for delivering high-quality, robust assessment solutions that support apprentices, employers, and training providers.

The apprenticeship landscape continues to evolve, driven by ongoing reforms to strengthen quality, consistency, and employer relevance across all standards. These reforms include the introduction of revised assessment plans, greater flexibility in assessment delivery, clearer grading criteria, and changes to funding bands and regulatory expectations. Collectively, these developments are designed to ensure that assessments are rigorous, fair, and aligned to current occupational competence requirements.

As part of these reforms, updated versions of apprenticeship standards and assessments models are being introduced across a number of sectors. VTCT Skills is committed to supporting the successful implementation of these changes, ensuring that all assessment services remain compliant, current, and responsive to industry needs.

As new and revised assessment versions are released, we will review and update our pricing structure accordingly. This ensures that our fees remain transparent, sustainable, and reflective of the requirements and delivery models of each assessment.

This price book will therefore be updated periodically to reflect the introduction of new or revised assessment versions resulting from apprenticeship reforms. We encourage all customers to refer to the latest version to ensure they have the most accurate and up-to-date information.

For further information or guidance on any of the content within this document, please contact your VTCT Skills Key Account Manager.
